TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Python, SQL (Mysql,Postgres), NoSQL(MongoDB), Linux

Frameworks: Tailwind, React.js, Node.js, Express, Next.js

Developer Tools: Git & GitHub, Docker, Kubernetes, AWS, CI/CD (GitHub Actions), JIRA, NLP, Machine Learning, GenAI, ShadCN UI.

Libraries: mongoose, Zod, ORMs, Recoil, Pandas, NumPy, Matplotlib

EXPERIENCE

Backend Engineer

Oct 2025 – Jan 2026

Illusion AI

- Built and maintained an AI-based product platform using FastAPI, delivering secure and scalable REST APIs.
- Modernized the system by migrating backend services to Node.js and integrating with a Next.js frontend.
- Designed data models and optimized API performance using MongoDB and Mongoose.
- Implemented CI/CD pipelines and cloud deployments using Docker, Jenkins, AWS, and Terraform following DevOps best practices.

Web Development Intern

April 2024 – Sept 2024

Mmeac IT Services Pune

- Gained hands-on experience in front-end web development HTML, CSS, JavaScript and React
- Developed a responsive Web Pages using HTML, CSS, and JavaScript.
- Worked with JIRA for task tracking, sprint planning, updating tickets, and coordinating project work.
- Used Git version control system in using GitHub for collaboration, pull requests, and repository management.

Associate Trainee

April. 2021 – Oct. 2023

Mahindra & Mahindra pvt.Ltd, Pune

- Worked with enterprise Employee Portal for HR operations employee profiles, attendance, and leave management.
- Built role-based React.js dashboards for Employees, Managers, and HR teams.
- Designed and implemented Node.js Express APIs with ERP integration and secure JWT-based authentication.
- Collaborated in teamwork, followed Agile-like workflows, and participated in task planning and code reviews.

PROJECTS

Paytm Wallet End to End | HTML, CSS, Tailwind, TypeScript, Next.js, Node.js, PostgreSQL

[GitHub](#) | [Live](#)

- Designed a secure, end-to-end financial backend using Express.js and Next.js, managing user authentication (JWT) and balance updates.
- Ensured transactional integrity by using PostgreSQL (ACID properties) and leveraging ORMs for reliable, safe database operations.
- Implemented robust data validation using Zod schema middleware to prevent bad input and protect the API from common security risks.

Developed Custom web components. | Javascript, Nodejs, MongoDB, Git & Github

[GitHub](#) | [Live](#)

- Designed custom library of web components using Vanilla JavaScript to create reusable UI elements that can be dynamically loaded and customized across different web pages.
- Demonstrated advanced JavaScript concepts by leveraging data and config attributes to initialize component state and manage updates without relying on heavy frameworks.
- Implemented a dedicated Node.js/Express backend connected to MongoDB to handle data persistence and serve the necessary configuration files for components.

Document Design Website | Html, Css, Javascript, JIRA

[GitHub](#) | [Live](#)

- Developed a comprehensive document design application using React to allow users to create and customise various templates (Certificates, Letters, Menus, Social Posts) etc
- Focused on user experience (UX) by implementing responsive CSS strategies and optimising component rendering to ensure a smooth, fast design process.
- Utilised JIRA for project management to track features, manage tasks, and coordinate the development timeline, demonstrating professional workflow adherence.

EDUCATION

B.E in Artificial Intelligence And Machine Learning

Savitribai Phule Pune University

Pune, India

Sept. 2023 – May 2026

Diploma in Electrical Engineering

Polytechnic college,Pune

Pune, India

April. 2021 – Oct 2023
