Professional Summary

Backend Engineer with 2.5+ years of experience building scalable REST APIs and cloud-deployable applications using Node.js, FastAPI, PostgreSQL, and MongoDB. Hands-on expertise with AWS services (EC2, S3, IAM, RDS), Docker, CI/CD pipelines, and modern backend architectures. Experienced in designing, deploying, and maintaining secure, high-performance systems from development through production.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL
Backend: Node.js, Express.js, FastAPI, Next.js, REST APIs, JWT Authentication
Databases: PostgreSQL, MongoDB, MySQL, Mongoose, ORMs
Cloud & DevOps: AWS (EC2, S3, IAM, RDS), Docker, GitHub Actions, Linux, NGINX
Frontend: React.js, Tailwind CSS, HTML, CSS, ShadCN UI
Tools: Git, GitHub, Postman, JIRA
Concepts: CI/CD, API Design, Authentication, Database Optimization, Cloud Deployment

Experience

Illusion AI

Oct 2025 – Jan 2026

Backend Engineer

- Architected and maintained secure RESTful APIs using FastAPI, ensuring modular, scalable, and production-ready backend services for AI-driven platforms.
- Led migration efforts from legacy backend services to Node.js while enabling seamless integration with a Next.js frontend ecosystem.
- Designed and optimized MongoDB schemas using Mongoose, improving data organization and query efficiency.
- Implemented CI/CD workflows using GitHub Actions and containerized applications with Docker for reliable deployments.
- Managed production deployments on AWS EC2, including server provisioning, environment configuration, and application maintenance.
- Utilized AWS S3, IAM, and RDS to implement secure storage, access management, and managed database infrastructure.

Mahindra & Mahindra Pvt. Ltd.

Apr 2021 – Oct 2023

Associate Trainee

Pune

- Contributed to enterprise applications by resolving defects and implementing enhancements within Node.js and Express.js codebases.
- Worked with JWT-based authentication workflows and gained exposure to ERP-integrated backend architectures.
- Extended and debugged production APIs while strengthening knowledge of RESTful service design and role-based access control.
- Collaborated with development teams through Agile methodologies, participating in code reviews, sprint planning, and issue tracking using GitHub and JIRA.

Projects

Paytm Wallet End-to-End System | Next.js, Node.js, TypeScript, PostgreSQL, Tailwind CSS

- Built a secure wallet management platform with JWT authentication, balance management, and transaction processing workflows.
- Leveraged PostgreSQL transactional capabilities and ORM-based operations to ensure consistency and reliability.
- Implemented schema validation using Zod to improve API security and data integrity.

Custom Web Components Library | JavaScript, Node.js, MongoDB

- Developed reusable web components using Vanilla JavaScript for dynamic integration across multiple web applications.
- Utilized configurable data attributes and modular architecture to support customization without external frameworks.

- Built a Node.js and Express backend integrated with MongoDB for configuration management and data persistence.

Document Design Website | React.js, JavaScript, HTML, CSS, JIRA

- Developed a responsive document creation platform supporting certificates, letters, menus, social media posts, and other templates.
- Enhanced user experience through optimized component rendering and responsive UI implementation.
- Managed project tasks and feature tracking using JIRA within a structured development workflow.

Education

Savitribai Phule Pune University

B.E. in Artificial Intelligence and Machine Learning

Sept 2023 – May 2026

Pune, India

Polytechnic College, Pune

Diploma in Electrical Engineering

Apr 2021 – Oct 2023

Pune, India
